## Top tips for selling with finance

Addressing customers' budget concerns head-on can help you close more sales. Use these talking points to guide your conversations.

Talk to your customers about

## 1 Higher energy costs = faster ROI

The payback period significantly reduces as energy prices rise.
This is because the cost of installing solar and the value received remains the same, whereas the cost of not having solar can continue to increase.Electricity prices for consumers are expected to increase from 1 July

## Keeping their savings aside for tomorrow

With our 0\% interest payment plan, customers can hold onto their savings and pay off the investment over time - something many will value in the current environment.

## Using finance to increase their budget size

With finance, customers aren't limited by their current budget. This allows them to increase their overall spend to install a larger system, or even include a battery for more self-reliance.

Affordable fortnightly repayments

- Further protection from energy market changes

## When presenting quotes

## Lead with fortnightly repayments

Customers can get cold feet when presented with a quote, even if it's for the amount they were expecting. Offering them fortnightly repayments can help ease the stress and make it more affordable to pay off over time.

A \$5,000 solar system paid off over 60 months on Brighte's 0\% interest payment plan $=\$ 41.47$ estimated fortnightly repayments

## Talk to your customers about

## Offsetting repayments with energy savings

Solar and sustainable home upgrades offer a way for customers to reduce their energy bills and take back control. A customer's repayments can be offset by the money they save on their electricity bills, reducing their out of pocket expenses.

## Using the tools

## Using our repayments calculator

With our repayments calculator, you can provide your customer with an estimate of their fortnightly repayments on the go.brighte.com.au/calculator

## Grow your business with our vendor app
